

Price: €7.000,- euro\*

*\* Available arround mid June/beginning  
of July in Santiago - Chile*

**FOR SALE - READY TO TRAVEL**

*2001 - nissan pathfinder 3.3 se wide - 4x4 manual*

# Introduction

---

*Hi future fellow traveler,*

*For over a year we have travelled in our Chilean Nissan Pathfinder, and throughout the months we have adjusted, replaced and added things to our tiny house until we thought it was perfect, homey and comfortable for us. And now it's time to sell... we haven't had any trouble with the car or border crossings, and just had a big check-up done, and everything is working perfectly.*

*Herke is a tall Dutchie with his 1,96 meters, and slept comfortably in our Pathfinder. We have slept 95% of the nights in our car, and it was rarely too cold or too warm. As it is just a regular 4x4, a very common one in South America (great for spare parts!), people won't see you live and sleep in the car, which we considered an advantage.*

*Also, we have had 2 family members over for 2,5 weeks, and rebuilt the bed so we could put the rear seats in for this period. This means the bed is convertible, so if you have any friends/family over during your travels, you can easily take them with you. This is also why we bought the roof rack (for their luggage), carrying up to 45kg.*

*Our Pathfinder has had 3 other owners (a company, a Chilean resident and another traveling couple) before us, and relatively few kilometers driven compared to other cars from similar years. Of course, the car has been used so you'll find some scratches here and there.*

*As we haven't booked a flight to our next destination yet, we are pretty flexible and would like to sell somewhere **between mid June and beginning of July in Santiago - Chile**. This also means we will have enough time to explain you the ins and outs of the car and help you get a RUT and insurance.*

*In this document you'll find all the car specifications and all the stuff that comes with the car, but it doesn't tell you what it's like to live in a/our car for a year, so if you have any questions or doubts: we'd be happy to skype/FaceTime to share our experiences with you.*

*If you're interested, please don't hesitate to WhatsApp or email us. It might take a few days for us to reply as we are currently in remote Patagonia; we'll try to contact to internet every 2/3 days. WhatsApp 0031 646433092, email herke.tuinstra@gmail.com*

**Price: €7.000,- euro**

All necessary documents are up-to-date:

- Technical Revision valid until September 2018
- Seguro Obligatorio valid until March 2019
- Permiso de Circulacion valid until March 2019

# About the car:
